# COURAGE AND A RESOLUTE DETERMINATION

# TO FIGHT A SECRET WAR.

"In this grave hour, in the lives of most of us we are at war. Over and over again we have tried to find a peaceful way out of the differences between ourselves and our ally's. But it has been in vain. The task will be hard. There may be dark days ahead and war is no longer confined to the battlefield." *(Adapted from King George VI First Radio Speech Sept. 3 1939)*

There are many parallels between 1939 and the run-up to WWII, and now.

Our battle today is just as clear cut, as our very survival as a Nation is at stake! So, is this a Democracy or a Republic?

And as a State, where is Arizona in this battlefield?

Could Arizona Be Ground Zero?

As current revelations unfold about the Deep State, we see more and more actual evidence of a Secret War that's been waging for decades against the Nation and the State of Arizona.

*It's All About Power & Control*

The Founders knew of this secret war well in the build-up to declaring Independence and War with Great Britain; and in our founding documents, they set out to erase it from America. They recognized that the quest for absolute power is voided only when there

is no absolute power to achieve. And they understood that a Democracy never lasts long before someone new becomes appointed to rule over the masses. For this reason, the Founders formed our Republic in a way that guarantees We the People are both heard and represented.

> **Thomas Jefferson** saw the profound issues with democracy. Jefferson said, *"The Republican is the only form of government which is not eternally at open or secret war with the rights of mankind*." He recognized the secret war that occurs under a democracy, was a war for power and control.
>
> **Alexander Hamilton** stated, "*Real liberty is neither found in despotism or the extremes of democracy, but in moderate governments*." He was correct, Hamilton rightly saw that in a democracy, the majority have the right to take away the rights of the minority simply by being the majority.
>
> **John Adams** saw the harm of democracy when he said, "*Remember, democracy never lasts long. It soon wastes, exhausts, and murders itself. There is never a democracy that did not commit suicide.*"

A Republic's representative democracy became their wise solution to this complex issue. In this way, the majority and the minority can have their voice heard by representatives, who pursue legislation for those they represent.

## Arizona Shines Through History

When Arizona became a State in 1912, it took *courage,* which is grace under pressure to fight the good fight for our freedom. Our State founders/leaders, and our first legislators, knew what it took to stand up and speak; and had the *courage* to know when to sit down and listen.

The historical records of Arizona's journey to statehood (Journals of the Arizona Constitutional Convention), reflect the difficulties our founders confronted in obtaining approval from both Congress and the President for Statehood over two decades.

A major problem was Washington's insistence that Arizona's proposed constitution had to reflect the ideals of the Progressive movement, which was influential at the time of the 1910 constitutional convention. That required the drafters to provide for maximum citizen participation through initiatives and referenda on legislation, and recall of all elected officials, including judges. On August 15, 1911, President Taft vetoed the statehood resolution (H.J. Res. 14) in large part because of the recall of judges provision, that he stated went against the need for an independent judiciary.

To overcome the veto, the founders modified the constitution to remove the judge recall provision (years later, the recall provision was added back in), and the Arizona

Constitution was officially adopted in 1912; Arizona became the 48th state admitted to the U.S. on February 14, 1912.

As a direct result of citizen initiatives, the 1912 Arizona Constitution has been amended 160 times – which is why the Arizona Constitution is far, far longer than the U.S. Constitution.

*Wonder What the Constitution Would Look Like if the Founders Were Not Under the Threat of Progressive Conformity?*

Today, many of our leaders lack the courage and resolute determination of our Arizona Founders.

Courage must be on purpose, internally built up until it is on fire and must be maintained despite the odds, as failure to secure and safeguard our freedom is never an option. Arizona's continued successes must lie with those who are courageous enough to take risks that will accomplish all that Arizona stands for in life.

And for those Legislators who lack continuing courage, We the People must find replacements with the courage to Always Fight for Our Freedom!

**The War in Arizona, Arizona's Seal, Motto, the 5 C's and ...**

With the rise of Tucson, our oldest city, to the ghost town and our art City of Jerome, to the majestic deserts and rolling mountains, to the wealth laden city of Paradise Valley, leaders have struggled but realized that the success they would reach would never be final; only fear and quitting would be fatal if deniers seemed to prevail.

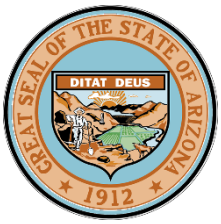

We the People understand that the WAR has been raging for decades, with the Pandemic Hoax being the latest assault on our State Republic, by the unconstitutional changing of our election procedures, stealing of our elections, and the destruction of ALL Election Integrity!

But despite our fears, we know we cannot QUIT!

While many Legislators (other public officials today, too) privately express despair over the current war, their public words reflect a determination to prevail. And although the leadership says they are trying to reach out to We the People for help and support, oftentimes they're not successful with their messaging. Only when Legislators exhibit genuine, transparent leadership, will Arizonans follow them into battles and celebrate their victories!

Then, and only then will their leadership truly be appreciated.

**Historical Symbols**

The Official State Seal of Arizona was designed in the Arizona Constitution. The motto "DITAT DEUS" means God Enriches.

Below the motto, are visual representations of the 5 C's that stand for: **climate, cattle, citrus, cotton, and copper**.

There is both a color, and black & white version of the seal, but the black & white version is considered the Official Seal. In the mid-2000s, research revealed that certain details on the original "Motter" Seal were lost over time. This was perhaps due to excessive photo copying or low-resolution scans - Features that were removed were restored.

> *This Seal stands for the strength and endurance of Arizona's past, and represents the resistance to fear, and mastery of fear; not the absence of fear in the creation of our State.*

**Our Path Is Forward…**

In the midst of present-day struggles with Legislators being expelled, school board members being recalled, an influx of alien invaders, a shortage of water and food on the shelves, increased inflationary pricing of our utilities and gas prices, and a Governor who has vetoed MORE BILLS than any other Governor in AZ's history… We the People still have the WILL TO FIGHT.

> *"Together we shall all face the future with stern resolve and prove that our reserves of will-power and vitality are inexhaustible." King George VI*

Arizonans have always been the trailblazers of the past. Whether it was searching for the Lost Dutchman's Mine, living through the loss of 19 Granite Mountain Hotshot firefighters in Northern AZ, or looking through a mirror to our future, we can only Do the Right as We See the Right, and reverently commit our cause to God ("God Enriches"). If we all keep resolutely faithful, ready for whatever service or sacrifice is demanded, then, with God's help, we shall prevail.

Nelson Mandela once said that *"I learned that courage was not the absence of fear, but the triumph over it. The brave man is not he who does not feel afraid, but he who*

*conquers that fear."* Those of us who are not willing to take risks will never accomplish what is necessary to succeed.

New leaders in Arizona must recognize that **Inaction Breeds Doubt and Fear**… but **Action Breeds Confidence and Courage**. If they want to conquer fear, and discover new "*oceans*", then they must also have the courage to lose sight of the "*shore*." AND to avoid repeating the mistakes of the past, they must seek the continued education from seasoned veterans, as this is the most powerful weapon they can use to help change the world, and create a thriving future for tomorrow's Arizona.

*"Say…whether peace is best preserved by giving energy to the government, or information to the people. This last is the most certain and the most legitimate engine of government. Educate and inform the whole mass of the people. Enable them to see that it is their interest to preserve peace and order, and they will reserve them. And it requires no very high degree of education to convince them of this. They are the only sure reliance for the preservation of our liberty." --Thomas Jefferson*

**Take The Quiz!**

If you want further education on Arizona's past, please check out the fun fact quiz I put together for all to learn by. Go to the attachment *ARIZONA'S STATE QUIZ* and the attachment *THE ANSWERS* included with this memo.
