

RETURN TO MEXICO POLICY, TITLE 42, TITLE 8, and The SAFE 3RD COUNTRY RULE BASICS…

WELCOME TO OUR NEW SANCTUARY NATION!

Welcome to Sanctuary Nation! A Nation rich of natural resources owned by China and managed by Cartels importing illegals. This sovereign Nation once run by "We the People" and for the People, have given way to ALL THE PEOPLE, except the legal citizens who pay taxes, and the patriots who set the laws for this Great Country.

With the forfeiture of *Title 42*, the *Return to Mexico Policy* and the *Safe 3rd Country Rule*, and the addition of Governor Hobbs *5 Point Preparedness Plan*, now we'll have our beloved US Constitution benefiting the illegals more than our Nation's legal citizens.

Let me explain what each of these programs have done to our country.

Title 42 and Title 8:

As of this moment, 5/10/23 9:21 PM MST, over 4,486 illegals have entered AZ across the illegal Border Crossing TODAY and rising 4-10 people every minute!

May 11 was the final day for the Trump and Biden administrations' "Title 42" policy, which undid the basic right to seek asylum at the U.S.-Mexico border for 38 months. President Trump first implemented Title 42 during the Covid-19 pandemic aimed to stop the spread of Covid-19 among other things. Since Title 42 is no longer, then Title 8 will once again be in effect.

With Title 42, if a migrant was expelled, they are not barred again for trying to claim asylum or disqualified from applying to parole programs; but under Title 8 they would be immediately removed from the U.S. and subjected to a five-year ban from claiming asylum[12].

Title 8[12] is the section of U.S. Code that lays out processing rules, including allowing for expedited deportations of migrants. Title 8 allows the officials at the border to expedite your removal under Title 8. A non-citizen, who crosses the border illegally without legal basis to remain will be processed for removal. However, an illegal can come into the country at the port of entry, and ask for asylum.

Title 8 was passed on Oct. 14, 1940, to consolidate and restate the laws of the United States regarding citizenship, naturalization, and expatriation, and, in addition to certain specific repeals thereby, all acts or parts of acts in conflict with its provisions were repealed by former section 904 of this title. Title 42 effectively stopped that.

Both Titles of authority allow quick processing (either a summary expulsion under Title 42, or an expedited removal under Title 8), with the difference being that expedited removals create a paper trail and require screening for asylum claims.

"Once the Title 42 order is no longer in place, DHS will process individuals encountered at the border without proper travel documents using its longstanding Title 8 authorities, which provide for meaningful consequences, including barring individuals who are removed from re-entry for five years," Department of Homeland Security (DHS) Secretary Alejandro Mayorkas said in December.

According to the Federation for American Immigration Reform (FAIR)[5], approximately 14,000 daily crossing are projected border-wide, as Title 42 expired on Thursday, May 11, 2023.

Florida has already put into action legislation[5] to help safe guard their citizens, and Texas has already deployed 1,500 National Guardsmen to the border[5]. Governor Abbott (TX) dismissed it as a paper-pushing exercise that's "a day late and tens of thousands of soldiers too few."[5]

Arizona's Governor Hobbs announced her own Preparedness Approach to the border crisis in her 5 Point Approach to public safety and humanitarian support[6]. Governor Hobbs remarked, ***"****The five-point approach is based on what we heard directly from these communities and is focused on public safety and humanitarian support," said Governor Hobbs. "Additionally, our approach will use all the state tools we have at our disposal to help border communities."*

Return to Mexico:

Now we have another program President Biden suspended from President Trump called **Return To Mexico.** President Donald Trump had introduced this program in January 2019 until President Joe Biden suspended it on his first day in office in January 2021, fulfilling a campaign promise. This policy has been billed has a deterrent to preempt invalid asylum claims.

President Trump's administration began implementing the Migrant Protection Protocols (MMP), or *Return to Mexico*, which empowered immigration officials to return thousands of asylum seekers to Mexico while their cases were decided by the U.S. immigration court system. The Department of Homeland Security said the policy, known as "Remain in Mexico" would address the escalating number of asylum claims.

To illustrate how effective that policy was, of the 7,000 asylum cases that have been completed in the El Paso sector since the policy was implemented, only 15 individuals received asylum—a denial rate of more than 99 percent.[7]

The Safe 3rd Country Rule:

This Rule was a BIG PART of the *Return to Mexico Policy*. However, under President Biden's new immigration Policy[9], there are many loopholes that can be utilized that allows any illegal immigrants asylum claim.

In the Federal Register, *Subpart C—Lawful Pathways and Asylum Eligibility for Certain Aliens Who Entered Between [EFFECTIVE DATE OF FINAL RULE] and [24 MONTHS AFTER EFFECTIVE DATE OF FINAL RULE §208.33 and §1208.33 Lawful pathways condition on asylum eligibility*[10]**,** it states, along with many examples:

> "…once the Title 42 public health Order is terminated, the United States will expand implementation of the CBP One application ("CBP One app"), an innovative mechanism for noncitizens to schedule a time to arrive at ports of entry at the South West Border [SWB], to allow an increasing number of migrants who may wish to claim asylum to request an available time and location to present and be inspected and processed at certain ports of entry, in accordance with operational limitations at each port of entry. Use of this app protects migrants from having to wait in long lines of unknown duration at the ports of entry, and enables the ports of entry to manage the flows in a safe and efficient manner, consistent with their footprint and operational capacity, which vary substantially across the SWB."
>
> "Once present in the United States, those who enter through this mechanism would be able to make claims for asylum and other forms of protection and would

be exempted from this proposed rule's rebuttable presumption on asylum eligibility. They would be vetted and screened, and assuming no public safety or national security concerns, would be eligible to apply for employment authorization after crossing the border as they await resolution of their cases."

"**These and other available pathways increase the accessibility of humanitarian protection and other immigration benefits in ways that provide a lawful, safe, and orderly mechanism for migrants to make their protection claims."** https://www.federalregister.gov/d/2023-03718/p-55

What Does This All Mean?

Whether you refer to *Title 42*, now Title 8 as of May 11, 2023, *Return to Mexico*, or *The Safe 3rd Country Rule* – our Nation is NO LONGER SAFE! America is and has become, **a Lawless Sanctuary Nation**.

Here are just a few consequences of these Illegal and Misguided Policies!

Our Nation is now dependent on economic migrant workers (NOT legitimate asylum seekers) from 3rd World Countries to work our agricultural fields, work in restaurants, and in construction and landscaping jobs. These and many other jobs are being taken away from legal citizens, because of the lower cost to business owners; indeed many businesses are requested to hire illegals ignoring our State adopted E-Verify laws.

Our educational systems are now responsible for educating these illegal immigrants; our medical facilities are required to nurse the illegal children and adults at taxpayer cost. Not to mention the kidnapping and rape of illegals and Americans in our States.

What about the drug and child trafficking into border states? The cartels make money, let alone the fact we lose money and lives attempting to stop these crimes. The legal system has been bought and paid for by Cartel money. No relief there, either.

Housing the illegals has been an increasingly harder situation to solve, causing unnecessary housing shortages and a groundswell of additional homeless in our city and rural areas.

And all of these consequences will require taxpayer costs, resulting in the shift of money away from Our Veterans, Seniors, Unemployed, Homeless, and Students!

A LAST MINUTE HICCUP…

A federal judge on Thursday evening granted a Florida Attorney General request and blocked the Biden administration from implementing a policy that allows for the release of migrants without court dates – just hours away from the end of the Title 42 public health order.

Judge T. Kent Wetherell II imposed a two-week restraining order on the Biden administration policy, which would see migrants released on "parole with conditions."

We'll have to wait and see IF and HOW Biden responds to this order.[15]

Call to ACTION

The solution is simple. **CLOSE THE BORDER!**

Our state legislatures can create laws, as Florida has done, that benefit the patriots of our State and not give into the Progressive and Democratic leaders who aggressively support the illegals and helping them into our country.

Do what Texas has proposed and have the National Guard with guns stopping any trespassers that try to enter our borders illegally.

If Arizona wants to remain a Sanctuary State with Democratic voters, and not go back to a Sovereign Once Free State, then keep on doing what they are doing now…NOTHING.

Otherwise, it's time to hold each and every Democratic elected official (squishy Republican liberals, too) accountable for their actions and non-actions, and for the "We the People" citizens to stand tall, elect Legislators and public servants who will speak on behalf of the people they represent, and STOP AND REVERSE the influx of ALL illegals coming across the border illegally.
