

ALL HANDS ON DECK!

This is the transportation tyranny the founders warned you about!

The Legislature VOTED AND PASSED on the revised Prop 400 (SB1102), Monday, 8/7/23 at 1 pm in both the House and the Senate. It now goes to the public for a vote in Nov. 2024

The Legislators *did not* get a chance to read the final Bill before they voted on it. The Bill as presented and signed by the Governor is 29 pages long.

Unfortunately, the latest language provides loop holes for the transportation bureaucrats to write up reports claiming their transportation tyranny scams are for "safety" so they can be funded.

The Bill also **DOESN'T**:

- prohibit the traffic filters that come with 15-minute-city-assigned zones which prevent you from leaving your neighborhood without paying a $90 fine like what's implemented in Oxford, England -- one of the first cities to implement 15 min city zones. The Vice Mayor of Phoenix and the Mayor of Tucson are both driving 15 min city zones.
- give we the people any defense mechanisms by requiring in-person public comment before they fund these damaging programs.

WE WILL BE HELD HOSTAGE FOR 20 YEARS WITH THIS LANGUAGE. JUST LONG ENOUGH FOR THE WORLD ECONOMIC FORUM INFRASTRUCTURE TO TAKE OVER ARIZONA!

It's concerning that they would vote to fund transportation zones that would confine Arizona citizens in little 15-minute walking distance prisons. The Bill **DOESN'T** give We the People any defense mechanisms by requiring in-person public comment before they fund these damaging programs.
