TO INVADE OR NOT INVADE...?

THAT IS THE QUESTION…

A VOCABULARY LESSON…

Today's literary lesson is on vocabulary.

If we were to start with the dictionary, Webster defines INVADE or INVASION as "The first attack of anything hurtful."

Let's take it one step further. Random House defines INVASION as, "to encroach or invade upon, such as *invade the rights of citizens*.

With those definitions at hand, not only has Arizona's Southern border been invaded, but the President, remember Biden (he, who thinks he is the VP!!), encroached on the citizens' rights, which in my book, is Treason!

As long as we are on a vocabulary lesson today, let's define TREASON. Looking to Random House once again, TREASON is defined as "a violation of allegiance to one's sovereign or state [and] the betrayal of a trust or confidence. Treason, or sedition mean disloyalty or treachery to one's country or its government."

Treason is any attempt to overthrow the government or IMPAIR THE WELL-BEING OF A STATE to which one owes allegiance. Maybe the President does not think that Arizona is one of the "57" States in the Union. Those words came from Obama; who is running this Country from the White House basement.

According to the U.S. Constitution, it is a crime to give aid and comfort to its enemies, as sedition is any act, written or in a speech, etc., directed unlawfully against state authority, the government or state Constitution or calculated to bring it into contempt or to incite others to hostility or disaffection.

Unless I am incorrect, didn't Biden take an Oath when he became President to watch over and protect the U.S.? He said, '

> "I do solemnly swear (or affirm) that I will faithfully execute the Office of President of the United States, and will to the best of my ability, preserve, protect and defend the Constitution of the United States."

It sounds to me like Biden has dug himself a hole. The penalty for violating the oath of office is explicit and direct regarding a violation of oath of office by federal officials which includes all members of Congress. 18 U.S.C. 1918 provides penalties for violation of oath office described in 5 U.S.C. 7311 which include: (1) removal from office and; (2) confinement or a fine. The definition of "advocate" is further specified in Executive Order 10450 which for the purposes of enforcement supplements 5 U.S.C.

But since sitting Presidents cannot be prosecuted in the Courts, Biden's conduct clearly constitutes grounds for immediate IMPEACHMENT!

Okay, so we know that Biden is an unjust President, but let's not get too much in the weeds here. Although his actions may scream TREASON, let's continue with WHAT IS Biden doing…or NOT doing to prove his true allegiance IS to Mexico, Iran, Russia, and China, and NOT the U.S.

SOME PROOF YOU ASK?

Back to invading America by illegal aliens.... It is easy to prove that our Nation is being invaded. Below are 7 articles sharing my point of view.

I wanna be like Texas! But it seems, also, that our Governor wants to be like Biden. Keep watching for the results of SB1231 .

The second listing above is a Bill presently in the Arizona's Senate. My bet is that the Veto Queen will veto this Bill before it pulls any muscle. Seems to me that Ms. Hobbs is playing Chess with Biden against the U.S….! If this passes and I hope it does, we will be in court deciding the Bill, or I should say FATE of AZ. It is a repeat of SB1070 all over again!

The National Guard that Governor Hobbs put on the border a month ago, will probably be Nationalized by the President, so the Guard can actually help pass out the popcorn and candy to those aliens coming into our Nation.

When Title 42 ended last year, did we ever think that the flood of illegals would become a Tidal Wave for AZ, TX? This emergency clause allowed U.S. authorities to send border-crossers back whence they came (usually Mexico) on public-health grounds, which ended with the COVID-19 public health emergency. And with the Biden administration extremely lackadaisical, to put it mildly, in its approach to general immigration law enforcement, what more does the end of Title 42 portend at the US-Mexico border?

LET'S TALK NUMBERS…

Late Friday night, the Department of Homeland Security released statistics showing that December 2023 set a new record for illegal entries, capping off the most disastrous year of illegal immigration to the United States.

In December, total nationwide encounters reached a record 371,036, bypassing the previous monthly record set in September by 30,000. In just the first three months of fiscal year 2024, nearly one million illegal aliens were encountered at our borders, and these figures do not include thousands of 'gotaways' who are known to have entered but evaded law enforcement.

	OCT	NOV	DEC	JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	Total
2024 (FYTD)	309,114	308,669	371,036										**988,819**
2023	278,317	284,624	302,392	209,151	213,911	259,471	276,036	275,166	211,457	245,154	304,073	341,392	**3,201,144**
2022	187,136	198,553	205,691	186,808	190,578	250,404	262,109	274,992	247,523	238,929	251,521	272,338	**2,766,582**
2021	90,585	89,072	92,746	95,276	115,559	192,025	196,190	198,459	207,823	233,919	231,243	213,622	**1,956,519**

Figures above by FAIR, January 2024.

Of the more than 371,000 aliens encountered, 302,034 were encountered at our southern border. Of those, nearly 250,000 were arrested between ports of entry by Border Patrol.

December statistics also showed that the number of unaccompanied alien children continues at crisis levels. In December, 13,527 unaccompanied minors were encountered, most of whom were transferred to Health and Human Services to be placed with sponsors throughout the United States.

What is even more alarming, the vast majority of the illegal aliens who are encountered are being released into the United States. Earlier this month, Homeland Security Secretary Alejandro Mayorkas, who is facing impeachment by the House of Representatives starting Tuesday, publicly acknowledged that more than 70 percent are released into the United States. Later, he privately admitted to Border Patrol agents that more than 85 percent of those encountered at the southern border are being released.

According to Customs and Border Patrol, approximately 45,770 aliens were processed and paroled into the country using the CBP (Customs and Border Patrol) One App in December 2023. Since the App became operational in January 2023, about 413,000 aliens have scheduled appointments to appear at a port of entry at the southern border and seek parole (which ultimately allows an alien to obtain a work permit and a path to citizenship).

DO THESE NUMBERS SCARE YOU?

They should!!

- These aliens entering YOUR state, are taking jobs designed for legal citizens. Forget about qualifications and experience!
- The children entering our borders unattended by family are allowed to enter our schools without any immunization records. Why is it mandatory for our legal children to have mandatory immunization records, or they cannot attend any classes?
- Hospitals and other medical facilities are required to take illegals in the emergency rooms and see them as regular patients without an emergency, and WITHOUT PAYING. Legal citizens must show ID and insurance in order to be serviced. And some hospitals are so overwhelmed with illegals, that citizens must wait for their medical care!
- Hotels are being converted into non-payment hostels for illegals, and kicking out the “regular” customers. Again, hospitals are kicking out paying patients for use to the illegals.
- Illegals get: a FREE phone, FREE monthly money and a credit card, FREE room and board; and are treated with more respect than citizens.
- Illegals bring diseases into our country affecting all Americans, especially children within the schools. Again, there is no record of immunizations from many illegal children entering our schools, so diseases, such as TB and Smallpox are reigniting a flame to our children’s families and medical personnel.
- VA employees are being detailed to help process entering illegals as opposed to servicing our Veterans!

I thought that I was a minority? I am a Conservative, Jewish, White and a Female. How do I become an illegal, so I can use all the bonuses and perks of an illegal? I guess honesty is not part of the equation as well.

LET'S SUMMARIZE…

Bullets please:

- ✓ We do, in fact, have an invasion at the Southern Border. The dictionaries don't lie.
- ✓ Articles written by scholarly individuals have shown proof of illegals and the numbers don't lie.
- ✓ FAIR is only one place to find articles on the true amounts of illegals entering our homeland. Look to Texas and other RED states to find that illegals are coming here in droves.
- ✓ Our, no YOUR President, has not stopped or closed the borders. He welcomes them to our cities and towns. **That is Treason!**
- ✓ Medical facilities and jails (criminals have entered our once beautiful Nation) are over-crowded with diseases and sick people from other countries.

Q and A…

- ➢ **How many immigrants don't have access to healthcare?**

About 50% of undocumented immigrant adults in America report being uninsured, compared to just 8% of U.S.-born citizens, according to the health policy research nonprofit KFF, due to undocumented adults being more likely work jobs that don't provide health benefits, as well as facing eligibility restrictions for federal programs. 2023 Year in Review

Mass Illegal Immigration

The Biden Administration has ignored the law and allowed for the massive catch and release of illegal aliens. Data from fiscal year (FY) 2023 highlights the impacts that these reckless policies have on America.

876,577 Migrants Paroled in First Nine Months

In 2023, the Biden Administration launched a new program to parole up to 360,000 otherwise inadmissible migrants from Cuba, Haiti, Nicaragua, and Venezuela, allowing them to fly into the interior. Half a million more were paroled in at the border and released. And that's just during the first three quarters of the year.

2 Million Pending Asylum Applications

The number of asylum applications pending is at a record high, with nearly 938,000 pending (at the end of 2023) before immigration judges and another 1.05 million pending with U.S. Citizenship and Immigration Services.

30,000 Pounds of Fentanyl

In 2023, nearly 30,000 pounds of fentanyl were seized (up from less than 5,000 pounds in FY 2020), of which 99 percent of all fentanyl seized nationally was seized at the southwest border.

3.2 Million Illegal Alien Encounters

Over 3.2 million illegal aliens encountered at our borders in one year, over 8 million since Biden took office.

140,000 Unaccompanied Children

In 2023, nearly 140,000 unaccompanied children were encountered – an average of 378 children each day.

772,490 Aliens Made Eligible for Temporary Protected Status

Secretary Mayorkas has used Temporary Protected Status as a de facto amnesty tool, deviating far from the purpose of the program. Mayorkas designated 6 new countries for TPS since taking office, and in the last 12 months alone, his decisions to re-designate 9 countries has made nearly one million more eligible. This is more than the number of aliens who currently hold TPS.

AND THE REST OF THE STORY…

*So, what can we do? What is our **Call to Action**?*

This is a State problem especially since we have a Lame Duck President, or, call it like it is: President Biden has been lame since taking office! Don't expect anything good from him.

- Look to our State Legislature, especially the Senate. Senator J. Shamp has a Bill she just introduced, SB1231 state crime; illegal border crossings. Write to the legislators and tell them to support this measure.

- Also, Senator S Bolick has just introduced a new Resolution YESTERDAY (1/29/24) in the Senate, that is unequivocally stating that the AZ Legislature supports the State of Texas and her Governor in his fight to secure the borders…https://www.azleg.gov/legtext/56leg/2R/bills/SCR1042P.pdf and feels that the AZ Governor should do the same. Make sure you all write to Senator Bolick and thank her, as well as all the Senators and Representatives to support this measure too. The number to this Senate Resolution is: SCR1042

To INVADE OR NOT INVADE, that is the question? The invasion has occurred, so now it is up to us Arizonans to initiate a cure to this disease.

Are you willing to help?

If you can, then:

- Start by contacting your Republican legislators and support their efforts.

- Then contact your Governor and tell her to support Texas and follow in their footsteps…

I will even write the letter to Hobbs and circulate it to you for your signatures.
