LD3 Executive Board,

Update. Today Chairwoman Kelly Ward responded to me by text about extending the final deadline for State Committeeman names to be submitted to her. The drop Dead deadline is January 14th. Because we have a meeting that entire day, I would like the results to me by January 13th so there is no chance we can miss the deadline.

A member of our MCRC Executive Board was assigned to be the LD 11 advisor. I am taking the role for the LD3 election. I am requesting that you copy me on all communications about this election. If you like you may also copy Joanie Colson, Joe Neglia and David Ludwig, as I have done above.

Remember that your **ONLY State Committee election was challenged.** Unlike the LD11 where both were challenged. So, luckily for you, you are only voting to see if your SC election will be redone or if the existing election stands. Nothing more.

I would like to recommend that you hold your election between Monday, January 9th- Thursday, January 12th. This will increase the likelihood of most of you members being able to attend. There have been many concerns voiced about the difficulty of meeting during the holidays.

Due to the infighting in this LD, it VERY important that the executive board does not break the rules of holding any executive board meetings/gatherings with three members, where not all of the members have been invited to. This would be considered breaking the rules. Please be careful of even casual meetings. Please be cautious! Unity and better relationships are built on trust. Please work together and unify as promised.

Thank you,

Mickie Niland
Chairwoman
Maricopa County Republican Committee
